

THE CORSI / COMPARETTO / ROSENTHAL*

DIY AIR PURIFIER

A 'box' made out of **MERV-13 filters** and a **box fan** can remove about **85%** of the airborne particulates that carry **COVID-19 virus**.

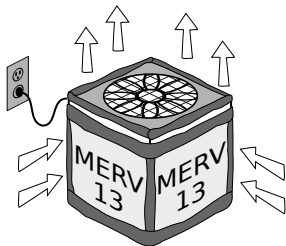

+

DUCT TAPE

This 'DIY air purifier' design can deliver the equivalent of **600 cubic feet per minute of virus-free air** to a room for **less than \$175 USD**.

* For build guides, citations, and performance reviews, search the web for '**Corsi DIY air filter**' or '**Comparetto cube**' -- or visit:
